ZULJANA

ZULJANA'S
15 inch Touch Screen
Queue Management Kiosk
ZL15QMK

Queue Management Kiosks

Intelligent Queue Management Kiosks with ultra-fast processors as the host of the device, with superb graphics processing capabilities and application computing power, the product has both stable and reliable industrial- grade product performance and intelligent self-service devices.

The product combines the advantages of stable and reliable industrial-grade product performance and intelligent self-service device; the excellent industrial design gives the device higher industry recognition; it can be widely applied It can be widely used in hospitals, shopping malls, schools, movie theaters, government halls, airports, railway stations, logistics and other public places. and other public places.

Technical Specification

CPU	RockChip RK3568 (Android) Celeron J4125, Core i3, i5, i7 (Windows)	**Colours displayed**	16.7M
Operating System	Android, Windows, Linux (Optional)	**Interfaces**	4 x USB 3.0 (Rear)
Working Memory	4 GB RAM upto 16GB		1 x Gigabit Ethernet, RJ-45
System Memory	32 GB ROM/SSD upto 256GB		2 x COM Ports
Operating Display	15" TFT-Display		1 x RJ-11 (Integrated circuit GPIO) 1 x Line-out 1 x Audio I/O
	Aspect Ratio: 4:3		
	Capacitive Touch Screen	**Networking**	Wifi + Bluetooth
	Resolution: 1024 x 768	**Input Power**	100-240V AC 50/60Hz
Screen Diagonal (inch/cm)	15/38.01	**Operating Temp**	-20 °C ~ 60 °C at 10% to 90% Humidity
Screen Panel Material	LCD liquid crystal touch screen	**Storage Temp**	-20 °C~80 °C at 10% to 90% Humidity
Display active screen size (cm)	30.41 (V) x 22.81 (H)	**Other Peripherals**	58/80mm Thermal Printer
